

COURSE DATA SHEET

COURSE OVERVIEW

Micro Focus DevPartner ensures that code is right the first time, saving time and effort spent locating software defects, memory leaks, performance bottle necks, configuration issues and other nasty surprises. Identifying problems before they go into production frees up time to make real development progress. This course is designed to teach you how to use all areas of DevPartner Studio and get you started with using the product.

Upon completion of this course you will:

- Be able to use DevPartner Studio against your .NET applications inside Visual Studio.
- Know how to instrument your unmanaged C/C++ applications to gather DevPartner Information.
- Be able to create reports based on DevPartner results.
- Understand the command line interfaces available to run DevPartner Studio outside of the Visual Studio IDE.

PREREQUISITES

- Experience working in a Windows environment, navigating a GUI environment, and using Visual Studio
- Knowledge of development languages and programming in .NET.
- The exercises for this course are designed using Visual Studio 2010, so completion of the exercises as written requires Visual Studio 2010.

TOPICS

- Module 1: Introduction to DevPartner Studio
- Module 2: Code Review
- Module 3: Code Review Rule Manager
- Module 4: Performance Analysis
- Module 5: Performance Expert
- Module 6: Memory Analysis
- Module 7: Error Detection
- Module 8: Coverage Analysis
- Module 9: System Comparison
- Module 10: Reports
- Module 11: Command Line Execution

COURSE FORMAT / AVAILABILITY

This course is available as both a self-paced Web Based Training and as a 2 day Instructor Led Training engagement.

WEB BASED TRAINING

Duration

- > 31 Days Access

Format

- > Delivered via web
- > Flash-Based Instruction
- > Video-Based Demonstrations
- > Hands-On Exercises
- > Downloadable Examples

Requirements

- > DevPartner Studio (Trial or Licensed)
- > Visual Studio 2010 (To complete exercises)
- > Modern Web Browser
- > Flash Client
- > Computer Speakers/Headphones
- > Broadband Internet (Slower connections are possible but will require additional wait time for content to load)

How to Order

- > Contact your Sales Representative
- > [Visit our Training Store for instant access!](#)

INSTRUCTOR LED TRAINING

Duration

- > 2 Days

Format

- > Instructor Led Training

How to Order

- > Contact your Sales Representative
- > [Contact Micro Focus Sales](#)
